ISSUE & BACKGROUND

The Department of Transportation and Development is pleased to present to the Board of County Commissioners the Semi-Annual Transportation Report for the fall of calendar year 2009. We last reported to you with the Semi-Annual Report for the spring of calendar year 2009. Included in this report are the Clackamas County Prospectus sheets and a revised CIP Prospectus Summary sheet. These sheets provide basic information on each of the projects including project scope, why the project is needed, environmental impacts, project budget and timeline. We have linked the individual project prospectus sheets to the prospectus summary sheet to provide dynamic project scheduling, estimating, and budgeting.

This update focuses on the following projects:

1. Intelligent Transportation System (ITS)
2. Stimulus Projects
3. Stafford Road and Borland Road Bridges
4. Cedar Creek Emergency Bridge Repair
